THE GROUND FLOOR

The ground floor is designed to blur the boundaries between indoor comfort and outdoor serenity. Expansive glass sliding doors connect the living room to a sun-drenched pool deck. The open-kitchen encourages gatherings that spill outdoors, just steps away, your pool—framed by timber decking and vibrant landscaping, inviting relaxation and recreation.

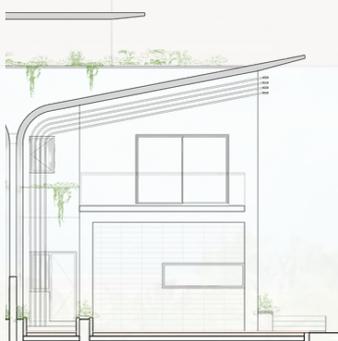

FIRST FLOOR

The elevator accessible living quarter on the first floor feature three spacious bedrooms, each with an attached baths. Two bedrooms have balconies with the master bedroom offering serene views, overlooking the pool and garden, blending luxury with natural beauty.

THE TERRACE

Last but not least, the elevator accesses the rooftop, featuring a convenient service counter and garden space. A well-appointed powder room ensures that the space is ideal for entertaining guests or enjoying a well deserved solitude. This fully functional terrace transforms the rooftop into a practical, inviting extension of the home.
